## AUTOMOBILE vs. LOCOMOTIVE.

May Match the Speed King of the Recent  
Ormond-Daytona Meet Against a  
Locomotive Soon.

The question of speed, or rather, minute race on the Ormond-Daytona which is the fastest means of locomotion in the world, is now of such special public interest that W. J. Morgan, the representative of the Florida East Coast Automobile Association, in behalf of the Denogot, the winner of the two-mile-a-

## A Poem for Today

### THE SOCIETY UPON THE STANISLAUS

By Bret Harte

BRET HARTE was born at Albany, N. Y., Aug. 25, 1839, and died in London, May 6, 1902. He went to California in 1854 and founded the Overland Monthly (San Francisco) in 1868. In 1870 he was made professor of recent literature in the University of California, but resigned and removed to New York in 1871. He was United States consul at Crefeld, Germany, 1872-80, and at Glasgow, 1880-85. The poem printed below is regarded as one of the author's most characteristic productions.

I RESIDE at Table Mountain, and my name is Truthful James. I am not up to snuff about or any sinful games. And I'll tell in simple language what I know about the row That broke up our society upon the Stanislaw.

But first I would remark that it is not a proper plan For any scientific gent to while his fellow man. And if a member don't agree with his peculiar whim To lay for that same member for to "put a head" on him.

Now, nothing could be finer or more beautiful to see Than the first six months' proceedings of that same society, Till Brown of Calaveras brought a lot of fossil bones That he found within a tunnel near the tenebrous of Jones.

Then Brown he read a paper, and he reconstructed there From those same bones an animal that was extremely rare. And Jones then asked the chair for a suspension of the rules Till he could prove that those same bones was one of his lost mules.

Then Brown he smiled a bitter smile and said he was at fault. It seemed he had been trespassing on Jones' family vault. He was a most sarcastic man, this quiet Mr. Brown, And on several occasions he had cleaned out the town.

Now, I hold it is not decent for a scientific gent To say another is an ass—at least, to all intent. Nor should the individual who happens to be meant Reply by heaving rocks at him to any great extent.

Then Abner Dean of Angel's raised a point of order, when A chunk of old red sandstone took him in the abdomen, And he smiled a kind of sickly smile and curled up on the floor, And the subsequent proceedings interested him no more.

For in less time than I write it every member did engage In a warfare with the remnants of a paleozoic age. And the way they heaved those fossils in their anger was a sin. Till the skull of an old mammoth caved the head of Thompson in.

And this is all I have to say of these improper games. For I live at Table Mountain, and my name is Truthful James; And I've told in simple language what I know about the row That broke up our society upon the Stanislaw.

## MINSTREL SHOW TUESDAY NIGHT.

Allen's Minstrels Will Amuse the Public.—Combination of Several Large Organizations.

A. G. Allen's New Orleans Minstrels, consolidated with Geo. W. Quine's and J. H. Oakes' United Minstrels are billed to appear here Tuesday, February 27th. The three combined make by far the largest minstrel organization in the country. They show under a mammoth canvas theatre which seats two thousand, embracing all that is new and novel in up-to-date minstrelsy. Watch for the big street parade at noon.

The company is a large one and has been on the road so long that they are now recognized as a standard amusement attraction and includes among its members many of the most noted minstrel artists in the United States.

ped with flanged steel wheels and to be run on the same track or a parallel track with the locomotive. If the race takes place on the same track, the automobile agrees to start behind or ahead of the locomotive, as an inducement to railroad officials that such a match be made. Mr. Morgan suggests that the loser pay a \$500 trophy emblematic of the speed championship of the world, the race to take place between the first day of May and June 1st, 1906. This race should be of special interest to the automobile exhibitors at the two New York shows, which functions certainly exhibit the final stages of automobile constructive efforts.

W. J. Morgan can be addressed at 116 Nassau Street, New York City.

## Dr. Jones to Leave.

Dr. and Mrs. J. M. Jones have shipped their household goods to Starke, Fla., and they expect to leave for that place today to make their future home. For more than thirty years, Dr. Jones has been a resident of Daytona and his many friends will regret to learn of his decision to leave the city.

## TRAVELED IN AUTOMOBILE.

Remarkable Trip Made From Chicago to Florida.—Distance Covered Was 18450 Miles.

One of the most remarkable automobile trips ever made was that made recently by C. M. Huston and son, Louis, business men of Chicago, says Morgan's Motoring Message. Mr. Huston left Chicago for perhaps the longest journey ever undertaken in an automobile. The distance covered in this trip is said to have been 18,450, as registered by an odometer.

They traveled through Ohio, Indiana, Michigan, New York, Pennsylvania and New Jersey, and arrived at Atlantic City, where they stopped seven weeks.

They then started for Florida and arrived at Jacksonville early in October, having traveled through Virginia, the Carolinas and Georgia.

From Jacksonville they proceeded to Atlantic Beach, eighteen miles from Jacksonville, and then drove along that fine natural highway for forty miles to St. Augustine, where they were ferried across Matanzas Inlet and proceeded down the beach to Ormond and Daytona.

Between St. Augustine and Daytona the Messrs. Huston had to lay 1,000 feet of plank, as the road or rather lack of road in that section makes automobilizing hazardous. It was at that point that Lieut. H. L. Willoughby, two years ago, had to use sand anchors to pull his machine out of the soft sand and then had to return to St. Augustine.

Mr. Huston was headed for Coron, his winter residence on the Florida East Coast, and reports that he had few mishaps during the trip and not one serious one. He says the roads through the Carolinas are something fearful and he would not want to duplicate the trip right away.

The representative of the Florida East Coast Automobile Association, W. J. Morgan, of 116 Nassau Street, is authority for a statement that a suitable road for automobiles which will be fairly good, will be available all the way from Jacksonville to Miami, the length of the East Coast, nearly 400 miles, inside of two years.

## TRANSPIRING IN SOCIAL CIRCLES.

A Busy Week of Dances, Entertainments, Etc.—Washington's Birthday Celebrated Appropriately.

Washington's Birthday was celebrated by a number of dancing parties at various places Thursday night, and from reports received from those present, it seems that at each place a social success was scored. On the Daytona side, the Opera House and the Armory were scenes of merriment, and dancing was indulged in until a late hour. Music of the best was furnished. The Colonades entertained the guests of their house last Thursday evening with a dance, which proved a success.

### AT EPWORTH HALL.

The Epworth Hall last evening was the scene of a dialect recital and musicals that was indeed one of the best and highest entertainments of its class held here in a long time. Miss Clara Mourey, an eloquentist of rare ability and a lady who is possessed with considerable talent, was the main attraction. She was exceptionally good, and those present were afforded a rare entertainment. Miss Mourey will entertain the guests of the Morgan House this evening.

### INDEFINITELY POSTPONED.

The dance scheduled for Monday evening at the Palmetto Club House has been indefinitely postponed. It is a source of regret that the dance has been postponed and it is to be hoped that it will be held at an early date.

### MILITARY ECHIRE PARTY.

Mrs. J. C. Keller and Mrs. Lasserer gave a military echire party to a number of friends on Washington's Birthday. The forts, prizes and even the refreshments were suggestive of the Father of His Country. First prize was won by Miss Lila Abercrombie. Mrs. Isherwood carried away second prize, while Mrs. J. R. Burns won third honors. The decorations were exquisite and were the subject of much comment.

### RECEPTION AT CHRISTY'S.

The reception at the home of Mrs. C. M. Christy Thursday evening was well attended. The function was under the auspices of the Home Mission Society. A musical program was rendered, after which very dainty refreshments were served.

### BAPTIST CHURCH SOCIAL.

The social given in the Sunday school room of the Baptist church, Thursday evening, was a very pleasant affair and those who attended thoroughly enjoyed the occasion. Delicious chocolate and cakes were served.

## CONCRNING HISTORIC DAYS.

About Ormond and Daytona.—Fight With Indians on the Site Where Daytona Now Stands.

From Mrs. M. A. Smith and her sister, Mrs. J. W. Thomas, of Atlanta, who have been guests of Dixie Lodge for some time past, a representative of this paper gleaned some interesting facts concerning the pre-historic days of the country round about Daytona and Ormond. The two sisters are in direct line of descent and great-granddaughters of Captain James Ormond, whose title to certain lands, including the present site of the town of Ormond, were continued on last page.

### RIENZI'S ADDRESS

By Mary R. Mitford

MARY RUSSELL MITFORD was born in Hampshire, England, in 1796 and died in 1855. Her father squandered \$100,000 which she had drawn in a lottery when she was ten years old. Her tragedy of "Rienzi" has for hero the famous Italian patriot who headed a revolution, became tribune and was assassinated in 1354.

## FRIENDS!

I come not here to talk! Ye know too well The story of our thralldom. We are slaves! The bright sun rises to his course and lights A race of slaves! He sets, and his last beam Falls on a slave—not such as, swept along By the full tide of power, the conqueror leads To crimson glory and undying fame, But base, ignoble slaves—slaves to a horde Of petty tyrants, feudal despots, lords, Rich in some dozen paltry villages, Strong in some hundred spearmen—only great In that strange spell, a name! Each hour dark fraud Or open rapine or protected murder Cries out against them. But this very day An honest man, my neighbor—there he stands— Was struck—struck like a dog—by one who wore The badge of Ursini because, forsooth, He tossed not high his ready cup in air Nor lifted up his voice in servile shouts At sight of that great ruffian! He we men And suffer such dishonor—men, and wash not The stains away in blood? Such shame are common. I have known deeper wrongs. I that speak to ye, I had a brother once, a gracious boy, Full of all gentleness, of calmest hope, Of sweet and quiet joy; there was the look Of heaven upon his face which humers give To the beloved disciple. How I loved That gracious boy! Younger by fifteen years— Brother at once and son! He left my side, A summer bloom on his fair cheeks, a smile Parting his innocent lips. In one short hour The pretty, harmless boy was slain! I saw The corpse, the mangled corpse, and then I cried For vengeance! Rouse, ye Romans! Rouse, ye slaves! Have ye brave sons? Look in the next fierce brawl To see them die! Have ye fair daughters? Look To see them live torn from your arms, disdained, Dishonored, and if ye dare call for justice Be answered by the lash! Yet this is Rome, That sat on her seven hills and from her throne Of beauty ruled the world! Yet we are Romans! Why, in that elder day to be a Roman Was greater than a king! And once again, Hear me, ye walls that echoed to the tread Of either Brutus—once again I swear The Eternal City shall be free, her sons Shall walk with princes!

### How Cowards Were Punished.

Many of the devices by which mili-  
tary indifference to life has been ma-  
nifested and sustained are curious. In  
ancient Athens the public temples  
were closed to those who refused mili-  
tary service, who deserted their ranks  
or lost their bucklers, while a law con-  
strained such offenders to sit for three  
days in the public forum dressed in  
the garments of women. Many a Spar-  
tan mother would stab her son who  
came back alive from a defeat, and  
such a man, if he escaped his mother,  
was debarr'd not only from public of-  
fices, but from marriage, exposed to the  
blows of all who chose to strike him,  
compelled to dress in mean clothing  
and to wear his beard negligently  
trimmed. In the same way a horse  
soldier who fled or lost his shield or re-  
ceived a wound in any save the front  
part of the body was by law prevented  
from ever afterward appearing in pub-  
lic.

### The First Electric Train.

The earliest public trial of a passen-  
ger boat driven by an electric motor  
was that conducted by Professor Jac-  
obi of St. Petersburg in the year 1838,  
though for four years previously he  
had successfully experimented with  
electric traction in the privacy of his  
own grounds. The trial of Jacobi's  
vessel took place on the Neva and was  
witnessed by a vast crowd of people.  
The boat was twenty-eight feet long  
and ten feet wide and carried fourteen  
persons.

It was not until four years later that  
we find any record of a passenger car-  
riage driven by electricity on land, and  
in this case the inventor was Alexan-  
der Davidson of Edinburgh. The car-  
riage was sixteen feet long by seven  
feet wide and was impelled for a mile  
and a half at the rate of four miles an  
hour on the Edinburgh and Glasgow  
railway.

### The Game of the Sheep.

Among the games of Russia there  
is a curious game called "the game of  
the sheep."

You know they skin a sheep or goat  
in the east by dragging the skin of  
whole over its head. This skin the  
Russians drip and grease most care-  
fully. Then they tie up the four legs  
and the neck and blow it full of air, so  
that it looks like a very greasy, badly  
shaped sheep. This is thrown in the  
middle of a ring, and each man in turn  
jumps on it with bare feet until one  
succeeds in bursting it. The lucky one  
then gets a purse. Such a funny sight  
as it is to see them jump and sprawl,  
for of course if they do not strike it at  
just the right angle they slip on the  
greasy surface as if it were a toboggan  
slide and go sprawling.

### Plates.

Individual plates for table use were  
unknown to the ancients, who held  
their meat in their hands or employed  
the flat wheaten cakes then made on  
which to hold their victuals. They are  
first mentioned in A. D. 600 as used by  
the luxurious on the continent, and in  
the ninth century they had come into  
common use both in England and on  
the continent. They were made of  
wood or some kind of earthenware, the  
former material being preferred be-  
cause it did not dull the knives.

### The Saturnalia.

The saturnalia was a midwinter  
feast of the Romans in honor of Sat-  
urn, beginning on Dec. 17. On this oc-  
casion great license was given to every  
one to do what he pleased, and even  
the slaves were permitted much liberty  
of speech and action. All work was  
suspended, the houses and temples  
were decorated, congratulations were  
exchanged and presents sent as with  
us at Christmas.

### Better Be Careful.

A sporting paper recommends a cer-  
tain way of avoiding the bites of a  
dog, however savage. All one has to  
do is to stand perfectly still and hold  
one's hand out. The dog, says the  
writer, will take the hand into his  
mouth, but will not bite it. But what  
guarantee have we that the dog knows  
this?—London Globe.

### Differences of Opinion.

"Women are hard to understand,"  
said the cynic philosopher.  
"Not at all," answered Mr. Meekton.  
"Henrietta has never yet spoken her  
mind to me without making herself  
perfectly clear."—Washington Star.

### DAYTONA AND ITS ATTRACTIONS.

DAYTONA is situated upon the west bank of the Halifax River at its widest expanse and midway between its source at Bulow Bay and its outlet at Mosquito Inlet. It is in latitude 29, seventy-four miles from St. Augustine and one mile from the Atlantic Ocean, and is acknowledged to be without a rival for beauty among the villages of the South. Its site is upon what is known as high hammock land that was crowned by nature with a most royal growth of majestic forest trees, and among these trees is the town of today, with its beautiful cottages and well-graded walks and streets. The result is that all along the wide avenues that intersect the town are lordly live and water oaks and hickories, many of them draped with graceful festoons of the gray Spanish moss, that overarch the street and walks, and among these are interspersed tall tropical palmettos, glossy-leaved magnolias, fragrant bayas and coral-berried holly, and many other varieties, while in many places the wild grape, the trumpet vine and the amplexifolius climb and cling among the branches forming shady bowers and adding grace and beauty.

The town lies parallel with the Halifax River, and extends for nearly two miles along the shore. This river is the delight of the angler and the yachtsman and forms one of the town's greatest attractions.

The main avenues that run parallel with or intersect the river are all 100 feet wide, except Beach street, which is about sixty-five feet, but has a half-mile of open, beautiful water abutting upon its eastern side, where the salt waves ebb and flow and along and across which comes the cooling, invigorating and health-giving breezes from off the wide Atlantic, which temper and render the Halifax climate one of the most perfect in the world. Daytona has many miles of well-graded, macled and shelled roads and streets, rendering it the

**Wheelman's Paradise**  
and added to these, but a mile away, are thirty miles of smooth, hard beach, that affords an unrivalled course for long-distance cycling and driving or automobile racing. No town of equal size, North or South, numbers so many wheelmen, and cycling is a favorite pastime with the tourists summer and winter.

**The Beautiful Cottages**  
that have been erected during the past years and are being built are rendering Daytona as famous for its fine homes as for its beautiful river, trees and avenues, and they are adding yearly to its attractions.

Not the least of these attractions to those securing homes in the South and ranking second only to healthfulness and perfection of climate, is the fact that its population is chiefly composed of cultivated and intelligent people, accustomed to the refinement of home and social life. Added to these features are good churches, good public and private schools, stores, hotels, laundry, meat markets, novelties, works, an opera house, electric light for street and house illumination, a good telephone system, ice factory, Lily Water Works, and hot and cold baths, etc., and everything else can be procured that is necessary to make life comfortable. An important feature in the healthfulness of this town is the

**Water Supply**  
which is derived from numerous flowing wells, of which there are probably 800 in the corporate limits. This flow is secured by boring wells to the depth of from 80 to 120 feet, passing through several strata of rock, and this depth assures purity from all surface contamination. The water is slightly impregnated with magnesium

and iron, and holds sulphur in the shape of gas, which soon passes away.

**The Population of Daytona**  
proper is about 1,800. Added to this is a suburban population on main shore and peninsula of about 1,000 at Kingston, Blake, Old Seabreeze or Goodall, Seabreeze and Silver Beach, which are properly a part of the town and population.

**Daytona Beach**  
lies one mile east of the town. It is approached by three good bridges over the river and well-graded avenues, and is the principal summer resort south of St. Augustine. It has more tourists during the summer than all other places south of that city combined, and is also becoming a favorite winter resort. The beach is wide, firm and smooth, by many considered the finest in the world, and the surf bathing is safe and excellent summer and winter. People who have tried Northern and Western summer resorts declare that there are none so perfect as Daytona beach.

**Automobile Race Meet.**  
The Florida East Coast Automobile Association conducts an annual race meet on the beach, which has now a universal reputation as the greatest automobile race course in the world. The Daytona-Ormond Beach is hard as uncut diamond, and an ideal stretch of thirty or more miles without a break makes it the natural racing ground for America.

At low tide the beach is bare for 300 feet and neither carriage wheel, bicycle or pedestrian can make a hardly visible imprint on the smooth and well-packed sand. It is no uncommon sight to see sail-rigged bicycles speeding with the velocity of the wind before a stiff breeze along the smooth beach, thus affording the most exhilarating sport known to man. Besides these, miles of hard-shelled, palm-lined boulevards bring the lovers of the wheel and vehicles into direct touch with the mainland over the broad bridges which span the splendid Halifax River.

The beach from the sandy bluffs to the lowest point at ebbside, measures about 500 feet, and the average depth of the surf measures about two feet. A continuous gentle swell rolls in from the ocean from one to two feet in depth under normal conditions, making the beach an attractive and absolutely safe place for surf-bathing. Here the infant as well as the grey-haired veteran of many summers, can safely enjoy the luxury of a sea bath. The larger part of the year while the strong and expert swimmer can venture out further to test his strength and skill in battling with the inexhaustible powers of the mighty ocean.

**The Peninsula**  
lying between river and ocean is one half mile wide, and is being rapidly improved, and there are many fine cottages and several good hotels, a opera house, two ocean piers, beach pavilion and a large casino.

### A Remarkable Feature

At Daytona has been the yearly improvement in the style and value of the buildings that are being erected for homes. Men of capital of the North and West have become awakened to its advantages for winter residences, and valuable lots are being purchased and costly houses, beautiful in design and finish, the abodes of wealth and culture are multiplying. Seabreeze (City Beautiful) and Goodall are settlements on the Ocean side of the peninsula across the Halifax River from Daytona.

At the foot of Ocean Boulevard, Seabreeze, a pier reaches 600 feet across the beach into the swelling surf of the ocean. This pier is a favorite resort of those who delight in the sport of fishing. The surf here abounds in trout, pompano, yellow perch, cavale, whiting, drum, sheepshead and many other varieties of edible fish. During the fall season the famous sea bass affords royal sport, and it has been no uncommon occurrence to land a thousand pounds of this gamey fish in an afternoon. Individuals of them ranging from fifteen to thirty-five pounds in weight. Not only does the ocean offer this splendid sport but the Halifax River, only half a mile back of the ocean, is equally famous for its fine fishing, and the varieties that abound in the river are present in the river.

Hunting and fishing good. Experienced guides and dogs may be had at reasonable prices.

**Concerning Historic Days.**

veyed to him by the Spanish Government of 1780. A typewritten manuscript "Reminiscences of an Old Settler on the Halifax," written by their father, who was a grandson and son of James Ormond I and II, at the earnest solicitation of his relatives and friends, tells the story of pioneer life as it was in the long ago. Among other exciting incidents, he describes a battle with the Seminole Indians in which he took part, and a striking recollection of which he carried with him as scars from four flesh wounds made by Indian bullets. He speaks of the fight as the big battle of "Dun Lawton," and as being fought on the banks of the Halifax, where Daytona now stands. Time has evidently blunted the cruel edge of many a hard experience, upon which the writer throws a humorous sidelight very enjoyable to the reader.

Mrs. C. J. Weller and Miss A. L. Barbour, of Binghamton, N. Y., are recent arrivals at the New Seaside Inn, Daytona Beach.

S. Ross Campbell, who has been a guest of The Colonades for several weeks past, has been called to Springfield, Mass., owing to the illness of his daughter.

Mrs. A. A. Cross and Mrs. W. E. Lampman, of Catskill, N. Y., who have been enjoying a stay at the New Seaside Inn, left Thursday on the return trip home.

Mrs. D. H. Fritto, Miss L. Fritto and Mrs. R. H. Roy, of Chicago, are representing the Windy City in the late arrivals at The Clarendon.

The anchovy will salt the dish sufficiently. Serve on crackers or on thin buttered toast.

The party from the Colonades, consisting of Messrs. Campbell, Vose and Kremer, who went to Hillsboro river on a hunting hunt several days ago, have returned. They brought back quite a number of ducks as "spoils of their prowess."
